PART V · BUILD THEM

Chords

Press three notes at once and you have a chord. Stack them, name them, turn them upside down, add layers on top. Every chapter of this part is in these four bars of Twinkle.

1 **Chords and triads** p. 107
three notes stacked like a layer cake

2 **Four kinds of triad** p. 110
major 3 + 2, minor 2 + 3

3 **Chords in a key** p. 113
Roman numerals: I, IV and V do most of the work

4 **Inversions** p. 116
the same notes, a different one at the bottom

5 **Seventh chords** p. 119
one more layer on top: G7

6 **Colour chords** p. 122
sus and add: a note moved or added

7 **The tower: 9, 11, 13** p. 125
keep skipping a letter

8 **Slash chords** p. 128
C/E: the chord, then the bass note

★ **Tips: when a chord sounds wrong** p. 131
