THE HANDBOOK CHECK

Where do I start?

The Handbook is not a course you must read from page 1. It is a map of everything a pianist reads, hears and plays. This check finds the chapters you already know and the ones to study, so you start exactly where you are.

How it works

1

Choose a part

New to music? Start with Part I. Otherwise begin with the part you need, or do all eight, one part at a time (about 5 minutes each).

2

Answer three questions

for each chapter: circle A, B or C. No book, no piano, no guessing: if you don't know, leave it.

3

Mark and map it

Check with the answers on the last pages, write your score, then colour the chapter on your map (page 15).

What your score means

3 RIGHT

Skip it

You know this chapter. Glance at its secret and move on.

2 RIGHT

Skim it

Read the chapter's opening picture and Examples; check the one you missed.

0 OR 1 RIGHT

Study it

Start here: read the whole chapter and do its workbook pages.

An example

Ex Sample chapter: the musical alphabet Handbook p.22

1 After G, the musical alphabet goes on with...
(A) H (B) A (C) C

2 How many different letter names are there?
(A) 7 (B) 8 (C) 12

3 Going down from C, the next letter is...
(A) D (B) A (C) B

Right: 3 / 3 3 skip · 2 skim · 0–1 study p.22

For teachers

Give one part as a ten-minute warm-up at the first lesson. The map shows at a glance which chapters to set, and repeating the check each term shows progress chapter by chapter.

Online: the same check marks itself and draws your map: Library › Handbook check.
