PART II · TIME · 7

Rhythm: off the beat

Now the fun part: rhythm that teases the beat. It only works if the beat underneath stays rock-steady.

THE SECRET

Keep the beat rock-steady and let the rhythm tease it.

starts on “&”, held over beat 2

A note between the beats

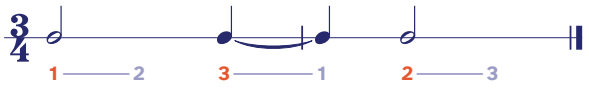

Syncopation

The crotchet starts on “&” and is held through beat 2.

Level 4. Feel beat 2 even though nothing is played on it.

Hemiola

Two bars of 3/4 felt as three minims.

Level 4. Common at the ends of phrases in Baroque dances.

Swing Level ½

Common from the first pieces: jazz, blues and many easy modern pieces are marked *swing*. Pairs of quavers are written evenly but played **long–short**, like the first and last notes of a triplet.

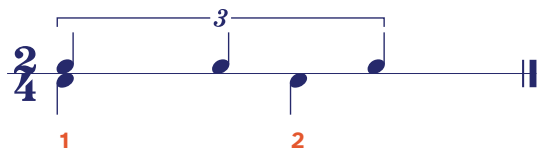

Written

Played

PART II · TIME · 7 · CONTINUED

Polyrhythm Level 7

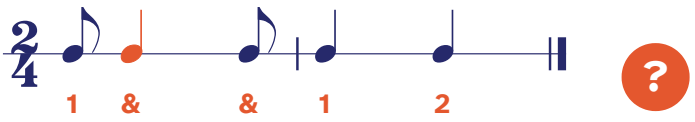

Three against two: a crotchet triplet above, two crotchets below, starting together.

Rubato Extra

Time is stretched and then given back, for expression: the music leans into a phrase and catches up after it. The pulse always returns. Marked *rubato*, or simply part of the style in much music from the 1800s.

EXAMPLE 1

Where does the long note start?

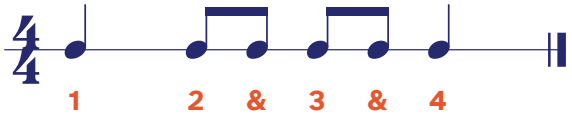

1. **Tap the beats:** 1, 2.
2. **Find the red crotchet.** Does it start on a beat, or on the "&"?
3. **Hold it:** through which beat?

It starts on the "&" and holds through beat 2: the long note starts **off the beat**. That is syncopation.

EXAMPLE 2

Which notes swing?

Swing

1. **Find the quaver pairs.** On which beats?
2. **Play each pair long–short:** "doo-ba".
3. **What about the crotchets?**

Only the **pairs** (beats 2 and 3) swing; the crotchets and the beat underneath stay even.

GAME

On the beat or off it?

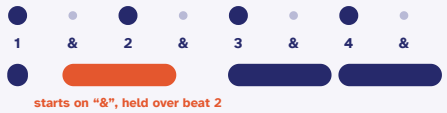

1	2	3	4
starts on 1	starts on &	starts on 2	starts on the & of 3

A note that starts on a number is on the beat; on an "&" it is off the beat. Which are off?

Answer: 2 and 4 are off the beat; 1 and 3 are on it.

PART II · TIME · 7 · CONTINUED

TRY IT · 10 SECONDS

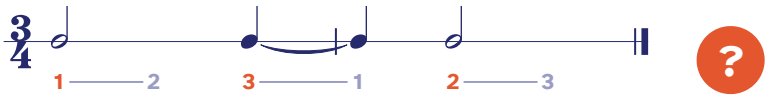

Foot on the beat, hands on the &.

Tap a steady beat with your foot. Clap only between the taps. If the foot starts to follow the hands, slow down.

EXAMPLE 3

Two bars of 3, or one big bar?

?

1. **Count as written:** "1 2 3, 1 2 3".
2. **Look at the notes:** how many beats does each minim last?
3. **Feel each minim** as one big beat. How many big beats?

Three minims of two beats: the six beats are felt as **three big ones**. That is a hemiola.

YOU KNOW THIS

The Entertainer (Scott Joplin)

The high **C** keeps landing just after the beat, not on it: syncopation, the bounce of ragtime.

Try it. Tap the beat with your foot and hum the tune: hear the C slip between the taps.

THINK OF IT Syncopation is a skip in your walk: a step that lands between the beats. Swing is walking with a spring in your step, long-short, long-short. Rubato is borrowing time like pocket money: whatever you spend, you pay back.

TRAP

- × Rushing the short notes after a long one: keep counting inside the long note.
- × Playing a triplet unevenly: three equal notes, not two quick and one long.
- × Letting syncopation drag the pulse: tap the beat with your foot.
