Chapter 2
Black Keys & Your First Song

v2 재구성판이에요 (2026-10-09 오전 방향 반영): 중심을 곡이 아니라 **패턴 인식 → 집마다 딸린 흰건반(3개와 4개) → 알파벳 음이름 → 가운데 도**로 다시 잡았어요. 높낮이는 패턴 페이지의 방향 한 줄로 접었고, 크고 작게는 챕터에서 뺐고, 음자리표·여왕과 왕은 악보 챕터로 아껴 뒀어요(B7). 종이에 빨간펜으로, 또는 채팅으로 답해 주시면 돼요. 노란 표시 = 답을 기다리는 부분.

공개 가이드 페이지를 위한 질문 3개

Q1. 검은건반 지도나 첫 노래에서, 학생들이 가장 많이 틀리는 것은 무엇인가요?
("From the teacher" 칸에 들어가요)

Q2. 레가토(또는 집 찾기)에 쓰는 소현님만의 팁이 있나요?
(거북이 지우개처럼, 다른 선생님이 바로 따라 할 수 있는 것)

Q3. 실제로 처음 가르치는 노래는 무엇인가요?
(핫 크로스 번? 비행기? 다른 곡? — 공개 페이지의 예시도 그 곡에 맞출까요?)

How to mark

- A 항목: **Fix it**에 체크하면 그대로 고칠게요. 다르게 고치고 싶으면 옆에 적어 주세요.

- 레슨북 초안: 아무 쪽이나 빨간펜 환영 — 사진으로 보내시거나 채팅에 번호로 답해 주세요.

CHAPTER 2 REVIEW

A. What I found

각 항목: 그대로 고칠까요? 체크해 주세요.

A1 Workbook p.4 says **“little house”** (the lead picture and its example line) while the app, the check-up and the Teacher copy all say **“small house”**.

→ **Make it “small house” everywhere.**

☐ Fix it ☐ No / differently

A2 The app's first-song tool shows **note names** (G♭ A♭ B♭, D♭) under the keyboard — but note names are only taught in the Note Names chapter. (In the code an unused label map even numbers the keys 1 2 3 5, which matches nothing.)

→ **Show finger numbers 2 3 4 (5) under the keyboard instead, like the new book page.**

☐ Fix it ☐ No / differently

A3 One chapter, several names: the chapter list and the books say **“Black Keys & Your First Song”**; the drill header says **“Piano keys & note names”**; the drill's game screen says **“Keyboard Patterns”**; the app lesson's title says **“The keyboard and your first song” / ‘건반과 첫 곡’**.

→ **One name everywhere: “Black Keys & Your First Song” / ‘검은건반과 첫 노래’.**

☐ Fix it ☐ No / differently

A4 “Mary Had a Little Lamb”: the tool's intro says **“fingers 2, 3 and 4 on its three black keys”**, but Mary also needs **D♭ in the next small house** — the intro never says which finger plays it.

→ **Either add the D♭ /finger-5 line when Mary is chosen, or keep Mary out (B2).**

☐ Fix it ☐ No / differently

A5 The Workbook's hand drawings (p.6 and check-up C) are still the old **skin-tone** pictures; chapter 1's books moved to the two inks.

→ **Redraw with the book's pen hands when the chapter is applied.**

☐ Fix it ☐ No / differently

A6 The app's house tools colour the houses **gold and green** with tinted keys; the book draws everything in **navy + coral**.

→ **When the chapter is applied, the app's tools follow the book's inks (as chapter 1's tools did).**

☐ Fix it ☐ No / differently

CHAPTER 2 REVIEW

B. Teaching questions

한 줄씩이면 충분해요.

B1. 곰과 새: 패턴 페이지의 방향 한 줄(곰 = 낮은 쪽, 새 = 높은 쪽)로 접었어요 — 이 정도면 될까요, 아니면 더 줄이거나 키울까요?

B2. 연주 페이지의 첫 튠: 핫 크로스 번(검은건반, 2 3 4) 유지 — 아니면 이름을 배웠으니 흰건반 곡으로 바꿀까요?

B3. 챕터 3(음이름)과의 분담: 챕터 2 = 이름이 어디 사는지(패턴→글자, 가운데 도), 챕터 3 = 이름을 빨리 대기(알파벳 체인, 전체 옥타브, 속도 게임; 샵·플랫은 더 뒤) — 이렇게 나눌까요?

B4. 한국어 모드에서 도레미 병기(C=도)를 여기서부터 할까요, 아직 알파벳만 할까요?

B5. 맨 아래 외로운 검은건반의 "개집(kennel)" — 책에 그대로 둘까요?

B6. 에코 게임 규칙: 검은건반 2–3개를 바로 따라 치고, 쉬워지면 4–5개 — 이대로 괜찮을까요?

B7. 제 선택: 음자리표와 여왕·왕은 악보 읽기 챕터에서 데뷔하고, 여기는 "낮은 목소리와 높은 목소리가 가운데 도에서 만난다"만 심어 둠 — 괜찮을까요, 아니면 여기서 미리 등장시킬까요?

B8. 7쪽 다섯 가지 확인(집 찾기 / 흰건반 3·4 / 음이름 대기 / 가운데 도 / 핫 크로스 레가토) — 실제로 확인하실 다섯 가지와 맞나요?

B9. 크고 작게(loud/soft)는 이 챕터에서 빼고 앱의 듣기 도구로만 남겼어요. 드릴 2단계는 "이 건반의 이름은?" 같은 음이름 문제로 바꾸면 될까요?

B10. 챕터 이름: "Keyboard Patterns & Note Names / 건반 패턴과 음이름" — 이걸로 바꿀까요? (앱·책·드릴·하우스 맵 전부 통일)

CHAPTER 2

Keyboard Patterns & Note Names

The piano looks like 88 different keys -- but it is one small pattern, repeated: a small house of 2 black keys that carries 3 white keys, and a big house of 3 black keys that carries 4. Learn the pattern, and every key on the piano tells you its own name.

In this chapter

Small house, big house	2
The white keys of each house	3
The seven letter names	4
The whole piano & middle C	5
Play on the patterns	6
My five checks	7

By the end, you can

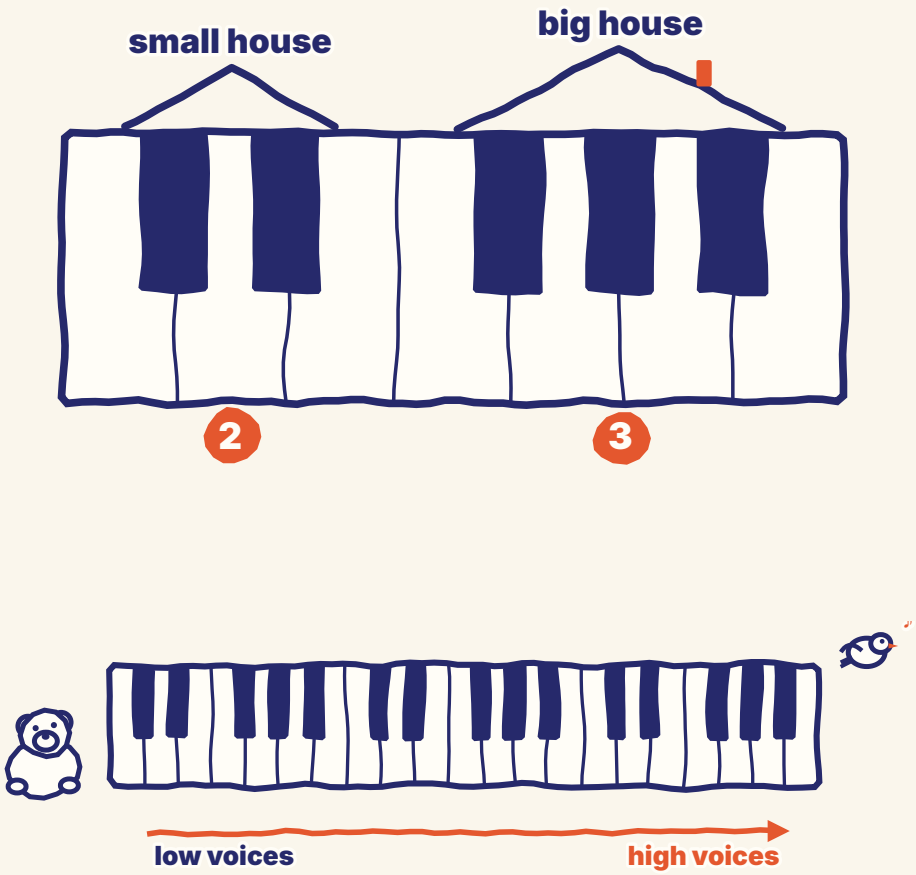

- ✔ find any small house or big house
- ✔ say which white keys belong to each house
- ✔ name every white key, C to B
- ✔ find middle C on a real piano
- ✔ play your first tune on the black keys

Goes with: the Workbook page beside each lesson page, and the online lesson (scan the code below).

TEACHER Pattern first, names second -- the same order at every age. Older beginners take this chapter in one sitting; younger ones live in the patterns for a while before the names stick. No staff yet: the Queen of G and the King of F wait for the Reading chapter -- here we only plant "the low and high voices meet at middle C".

Step 1

Small house, big house

Two black keys together make a small house. **Three** make a big house. Small, big, small, big... the same two houses repeat all the way up the piano. And the street climbs from **left (low sounds) to right (high sounds)**.

At the piano

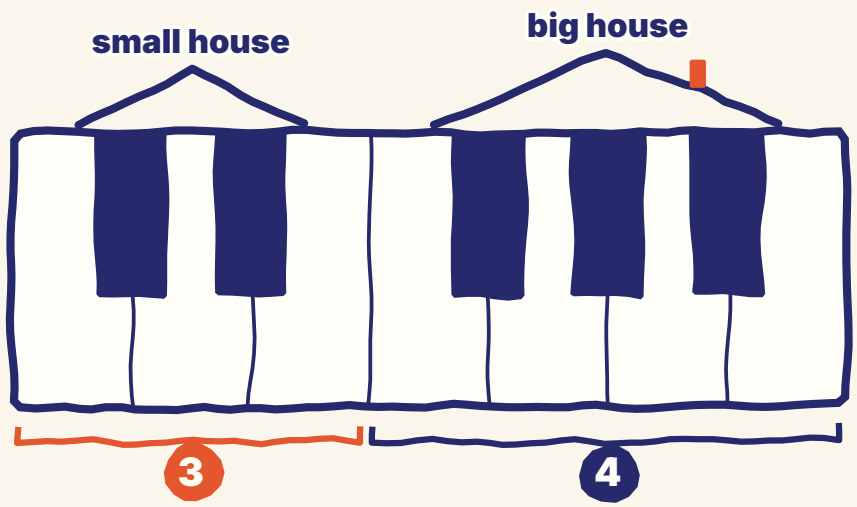

1. Find a **small house** and a **big house** near the middle of the piano. ☐
2. Travel from the very bottom to the very top, saying it out loud: "small house... big house... small house..." ☐
3. Close your eyes. Someone plays one high or one low sound -- point to the end of the street where it lives. ☐

REMEMBER **Small house = 2. Big house = 3. Low on the left, high on the right.**

TEACHER Watch for counting black keys one by one instead of seeing the groups. Say: "Look for the shapes, not the keys -- two together, three together." The bear (low end) and the bird (high end) carry the direction; loud/soft moved out of this chapter.

Step 2

The white keys of each house

The white keys are not just anywhere -- each one **belongs to a house**. The small house carries **3** white keys (left door, inside, right door); the big house carries **4**. 3 + 4 = **7** -- after seven, the street starts again.

At the piano

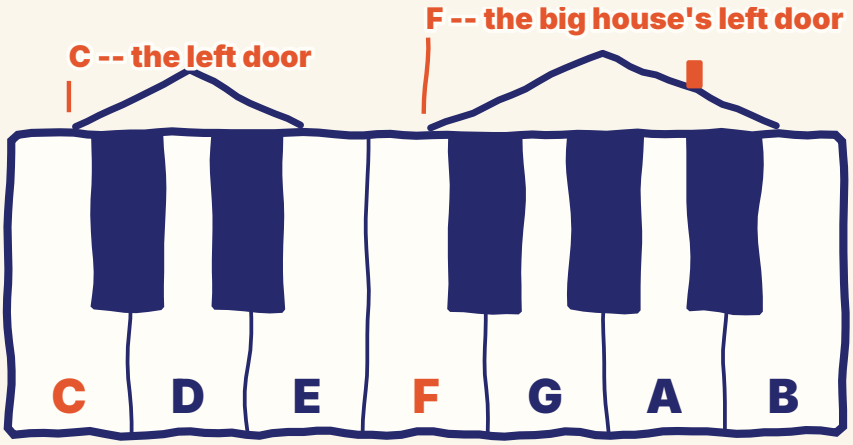

1. Find a small house and play its **3** white keys in turn: left door, inside, right door. ☐
2. Move to the big house next door and play its **4** white keys in turn. ☐
3. Travel up the whole piano saying "three... four... three... four..." ☐

REMEMBER **Every house carries its white keys: 3 at the small house, 4 at the big.**

TEACHER This is the chapter's key idea: the white keys belong to a house. 3 at the small house, 4 at the big one -- 3 + 4 = 7, then the street repeats. A student who sees this grouping finds every note name (and later every scale fingering) from the pattern, not by counting from the bottom.

Step 3

The seven letter names

Music uses just **seven letters**: **C D E** live at the small house and **F G A B** at the big one. **C is the small house's left door** and **F is the big house's** -- learn the two doors, and you can walk to every other name. After G? A again.

At the piano

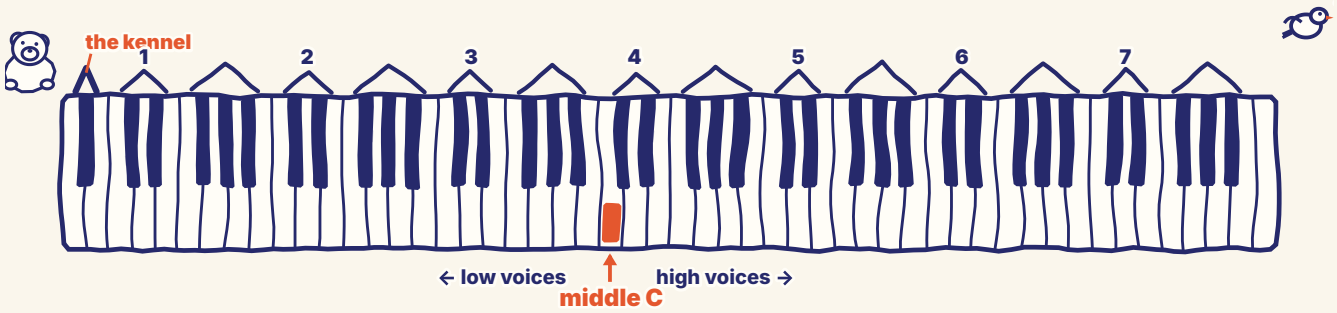

1. From the bottom to the top, find and play **every C** -- one at each small house's left door. ☐
2. Now find and play **every F** -- the big house's left door. ☐
3. Someone says a letter (D, G, B...); use the two houses to find that key and play it. ☐

REMEMBER **C D E at the small house, F G A B at the big -- and after G comes A.**

TEACHER Anchor C and F at their doors; the rest follow by walking. Watch for "H" (there is none -- after G comes A again) and for counting from A at the bottom. Letters only here; 도레미 alongside (Korean mode) is an open choice.

Step 4

The whole piano & middle C

A real piano has **88 keys** -- yet still only 7 small houses and 7 big ones. Count to the **4th small house**: its left door is **middle C**. To its left live the low voices, to its right the high voices -- middle C is **the door where they meet**.

At the piano

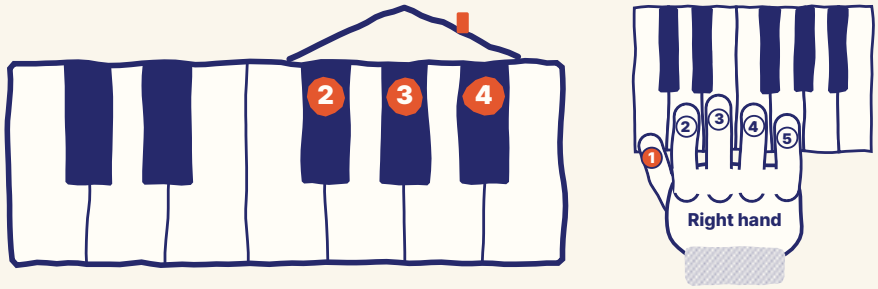

1. Count the **small houses** from the bottom: 1 up to 7, touching each one. ☐
2. Find the **lonely black key** at the very bottom -- right beside it is the lowest key of all. ☐
3. Play **middle C**; then the C one house lower (a lower voice) and one house higher (a higher one). ☐

REMEMBER **Middle C: just left of the 4th small house -- where low and high meet.**

TEACHER Tick each house while counting so none is counted twice. The lonely black key is A♯0/B♭0, the second key from the bottom. "Kennel" for the lonely key -- your call.

Play

Play on the patterns

Now the map pays you back. Your first tune needs no written notes: just the **big house** and right-hand **2, 3, 4**. Play it **smooth as honey** (legato) -- one finger lets go at the exact moment the next one plays.

Hot Cross Buns one circle = one steady beat; a dashed circle = hold one more beat

4 3 2 ◌ | 4 3 2 ◌ | 2 2 2 2 3 3 3 3 | 4 3 2 ◌

At the piano

1. Right-hand **2, 3, 4** on a big house near the middle; sing and play slowly: **4 - 3 - 2...** ☐
2. **Echo:** someone plays two or three black keys; you play them straight back. Take turns. ☐
3. Make up your own black-key tune, give it a name, and play it to someone at home. ☐

REMEMBER **Legato: smooth as honey -- no gaps, no bumps.**

TEACHER 2 3 4 from left to right; check the chapter 1 habits while it plays (round hand, wrist back to level). Legato is the exact hand-over: no gap, no blur. The first tune stays a black-key rote song (Hot Cross Buns) -- or switch to a white-key tune now that the names are known? Echo: 2-3 black keys, straight back; grow to 4-5.

Step 5

My five checks

Show, don't tell! Give yourself a star for each check in each lesson.

		Lesson 1	2	3	4	5	6
	**I can find a small house and a big house anywhere**	☐	☐	☐	☐	☐	☐
	**I can say each house's white keys: 3 and 4**	☐	☐	☐	☐	☐	☐
C D E F G A B	**I can name any white key (C at the small house's left door)**	☐	☐	☐	☐	☐	☐

	**I can play Hot Cross Buns legato with 2 3 4**	☐	☐	☐	☐	☐	☐

 REMEMBER **Pattern first, names second -- the keyboard is a map you can read.**

TEACHER Chapter 1's five checks still come first, every time at the piano. These five are this chapter's own: the student shows you each one on the keyboard; you only correct. All five easy? Do the Chapter check-up in the Workbook.

CHAPTER 2

Black Keys & Your First Song

The black keys are a map of the piano -- and your very first song lives on them. You'll also learn to play smoothly: legato. Each page goes with one step of the Lesson Book chapter.

Low sounds live at the bear's end, on the LEFT. **High sounds live at the bird's end, on the RIGHT.**

Lesson step 3 Set _____ Due _____ 10 min · scan → step 3 online first · drill level ___ best ___/10

TOGETHER Count the houses on a real piano

A real piano has 88 keys. Count the small houses together, from left to right, ticking each one.

The very bottom black key has no house -- just a lonely kennel, next to the bear.

Bottom half -- the low keys, the bear's end

Top half -- the high keys, the bird's end (carry on counting here)

Small houses: **7**

AT HOME Your turn on the big piano

Use the keyboard above. Count the big houses. Then draw the kennel over the lonely black key at the very bottom!

Big houses: ☐ Lonely black key -- draw its kennel on the keyboard

★ PLAY Bear or bird?

TOGETHER Fingers on the big house

Right hand on the big house: 2 on the first black key, 3 in the middle, 4 on the right-hand one (the highest). Write the finger number on each black key.

EXAMPLE

AT HOME Hot Cross Buns

Here is the song in finger numbers. Fill in the missing numbers, then play it every day this week.

★ PLAY Smooth as honey: legato

LEGATO means smooth -- one finger lets go just as the next one plays. Draw a smooth snake joining the honey pots without lifting your pencil. Then play Hot Cross Buns legato!

Legato is walking: one foot is always on the ground.

Not legato: hopping, with a gap between every step.

The higher dot is always the one further right. PLAY: any pictures (a bird for high and soft, thunder for low and loud...).

Watch for
Thinking "higher" means further up the piano lid, or confusing high with loud.

If stuck, try saying
"High and low is WHERE on the piano. Loud and soft is HOW HARD you play."

p. 4 Small and big houses

AT HOME 1. **3 small houses, 3 big houses (3 octaves)**

AT HOME 1. **7 big houses** 2. **the lonely black key is the second key from the bottom (A♯0/B♭0) -- a kennel drawn over it**

PLAY 1. **bear (low): elephant, thunder, drum** 2. **bird (high): mouse, bell, whistle**

Watch for
Losing count on a long keyboard -- encourage ticking each house.

If stuck, try saying
"Tick each house as you count it, so you never count one twice."

p. 6 First song · legato

TOGETHER 1. **2 3 4 (left to right)**

Watch for
Lifting the hand between notes (a gap), or holding both keys down (a blur). Legato is the exact hand-over.

If stuck, try saying
"Walk with your fingers: one foot is always on the ground -- never both feet in the air, never both on the ground for long."
