THE PIANO BUTLER · LEVEL BOOK

Prelim

One step on each page: a big picture, a few words, and one thing to try at the piano. After each room, a page to practise. The last room trains your ears.

THE ROOMS

1 · Practising well
2 · Loud and soft
3 · The staff and the keyboard
4 · Reading the notes
5 · How long is a note?
6 · Time signatures
7 · Repeats
8 · Touch: smooth and short
9 · Major scales
10 · Minor scales
11 · Chords and triads
12 · Ear training

ROOM 1 · STEP 1 OF 3

Practising well

SCAN TO LISTEN

1	2	3
Slow	Small	Correct

Good practice is **slow**, **small** and **correct**.

Slow enough to get it right. A small piece at a time. And right from the very first try.

Try it at the piano

1. Choose two bars of your piece. Play them at half speed, with no wrong notes.

ROOM 1 · STEP 2 OF 3

Practising well

When it is right **three times** in a row, go **one step faster**.

If it falls apart, step back down. This is the metronome ladder.

Try it at the piano

1. Set a metronome (a ticking beat-keeper; there is one in the app) to 60. Play your two bars three times. All right? Move up to 66.

ROOM 1 · STEP 3 OF 3

Practising well

1	2	3	4

Every piece has a **hardest bar**. Find it and practise it **first**, while your mind is fresh.

Then join it to the bar before and the bar after.

Try it at the piano

1. Find the hardest bar in your piece. Play it slowly five times, then play it with its neighbours.

ROOM 1 · PRACTISE

Practising well

1 Good habit?

★☆☆

Circle helps or wastes time. The first is done.

the hardest bar first	**helps**	**wastes time**
always from the top	**helps**	**wastes time**
play faster after a slip	**helps**	**wastes time**
three correct, then faster	**helps**	**wastes time**
hands separately first	**helps**	**wastes time**

2 My fifteen minutes

★★☆

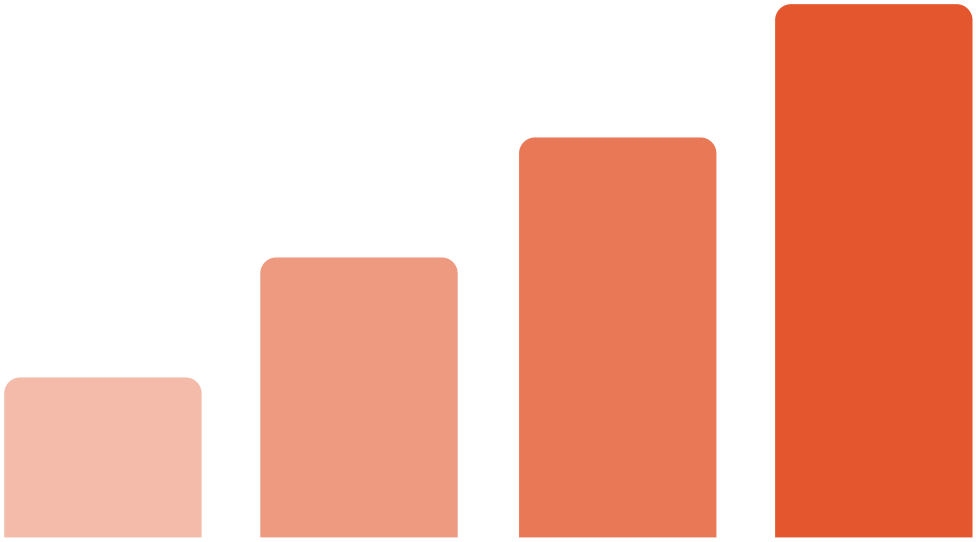

Plan your practice: what will you do in each part?

TIME	WHAT
2 min · warm up	
5 min · hardest bars	
5 min · join them	
3 min · play it through	

ROOM 2 · STEP 1 OF 3

Loud and soft

SCAN TO LISTEN

p	***mp***	***mf***	***f***
soft	quite soft	quite loud	loud

Four signs tell you how loud to play. ***p*** is *piano*, soft. ***f*** is *forte*, loud.

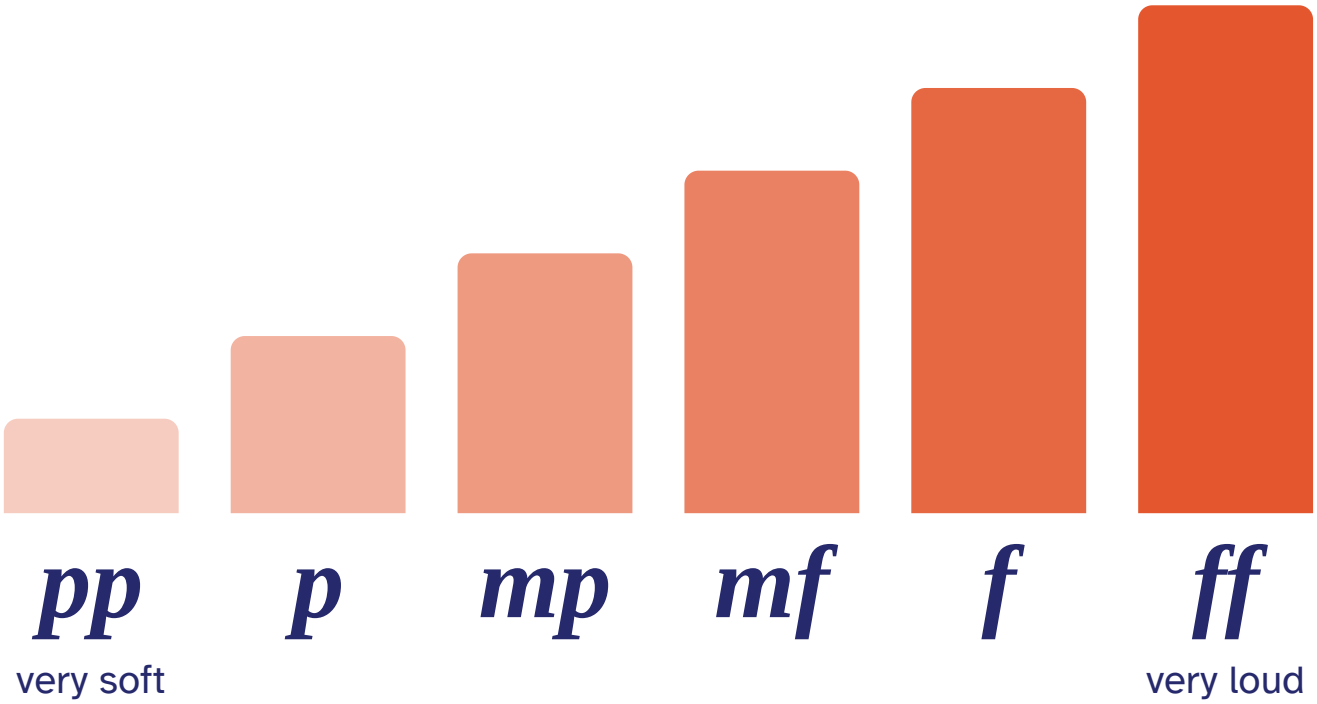

Mezzo means medium: ***mp***, mezzo piano, is quite soft and ***mf***, mezzo forte, is quite loud.

Try it at the piano

1 Play C four times: p, mp, mf, f. Four steps, the same speed.

ROOM 2 · STEP 2 OF 3

Loud and soft

Two letters mean **very**: ***pp*** is very soft, ***ff*** is very loud.

That makes six steps, from a whisper to a shout.

Try it at the piano

1. Play C six times, one step louder each time. Then come back down the steps. ○

ROOM 2 · STEP 3 OF 3

Loud and soft

crescendo

getting louder

diminuendo

getting softer

A sign that **opens** means get louder little by little: **crescendo**. A sign that **closes** means get softer: **diminuendo**.

The wide end is the loud end.

Try it at the piano

1 Play C D E F G getting louder, then G F E D C getting softer.

ROOM 2 · PRACTISE

Loud and soft

1 What does it mean?

★☆☆

Write the meaning. The first is done.

SIGN	MEANS
mp	quite soft
mf	
pp	
ff	

2 Softest to loudest

★★☆

Write the six signs in order, from the softest to the loudest. The first is done.

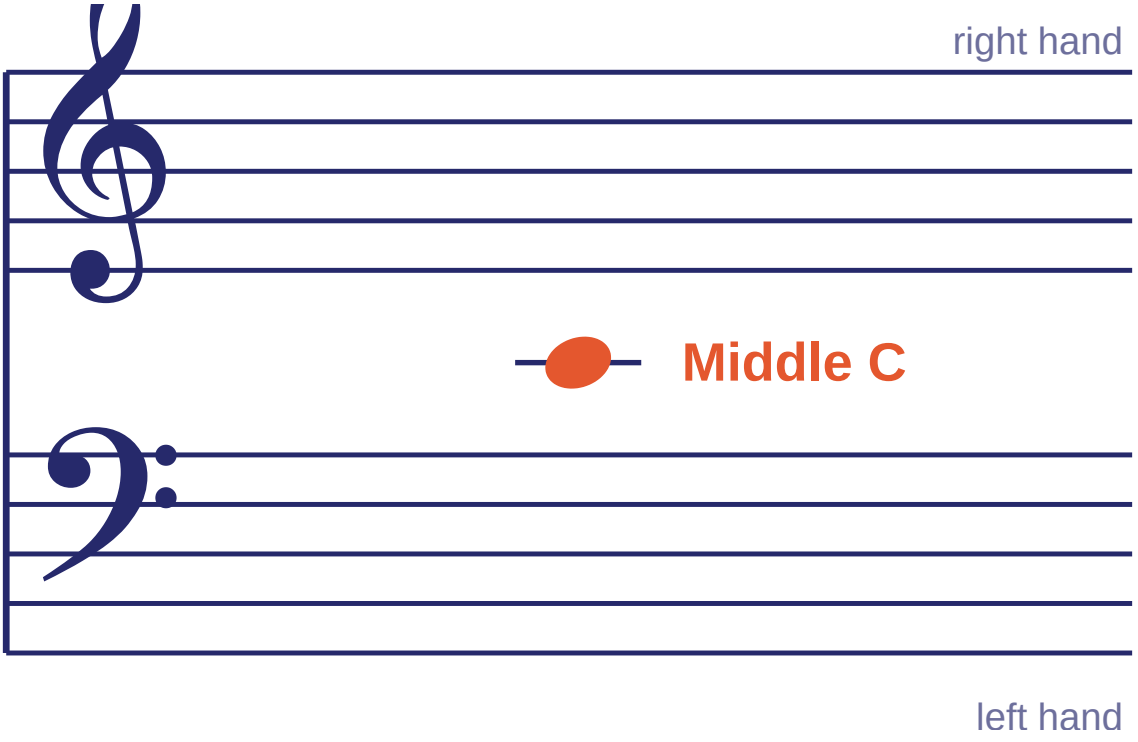

pp ☐ ☐ ☐ ☐ ☐

f · mp · ff · p · mf

ROOM 3 · STEP 1 OF 2

The staff and the keyboard

SCAN TO LISTEN

Piano music uses **two staves** joined together: the top one for the right hand, the bottom one for the left.

The curly sign at the top is the **treble clef**. The one below is the **bass clef**.

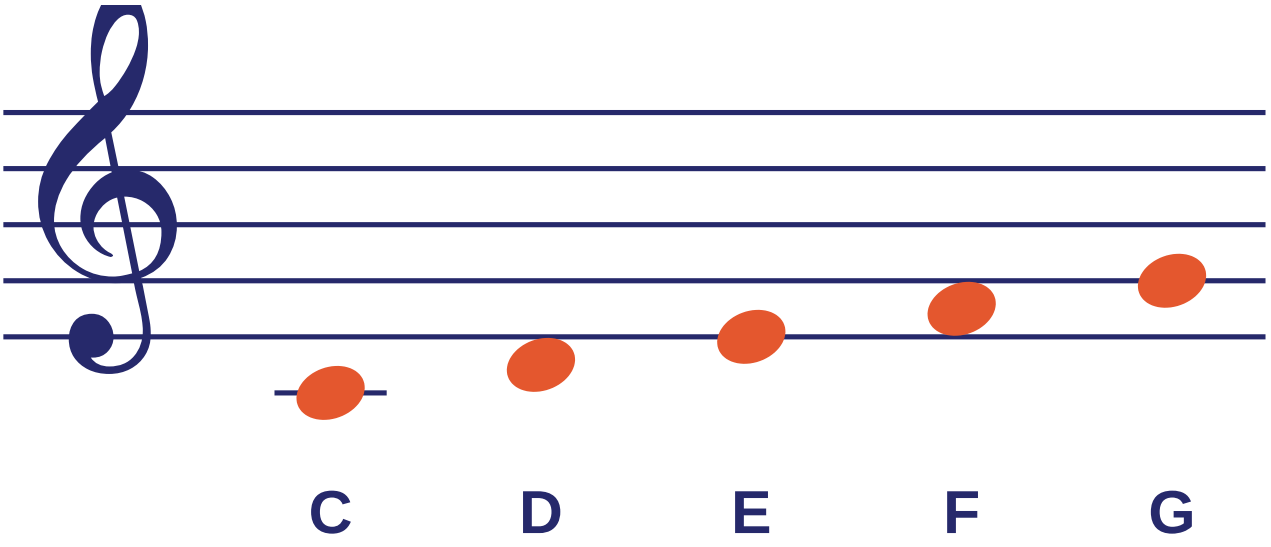

Middle C sits between them, on a little line of its own.

Try it at the piano

1. Find Middle C: the C nearest the middle of your piano. Play it with each thumb.

ROOM 3 · STEP 2 OF 2

The staff and the keyboard

From Middle C, each **step up** on the staff, line to space, space to line, is the **next white key** to the right.

Line, space, line, space, line: C, D, E, F, G.

Try it at the piano

1. Right thumb on Middle C. Play C D E F G while you look at the five notes on the staff. ○

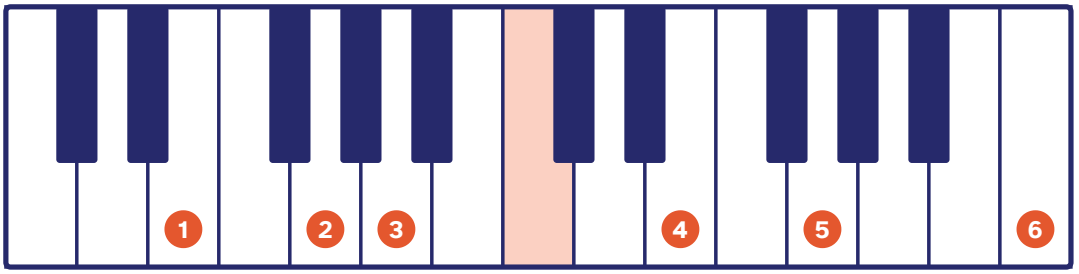

ROOM 3 · PRACTISE

The staff and the keyboard

1 Which key?

★☆☆

Middle C is marked. Write the letter name of each numbered key. The first is done.

Middle C

1 E 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐

2 Count from Middle C

★☆☆

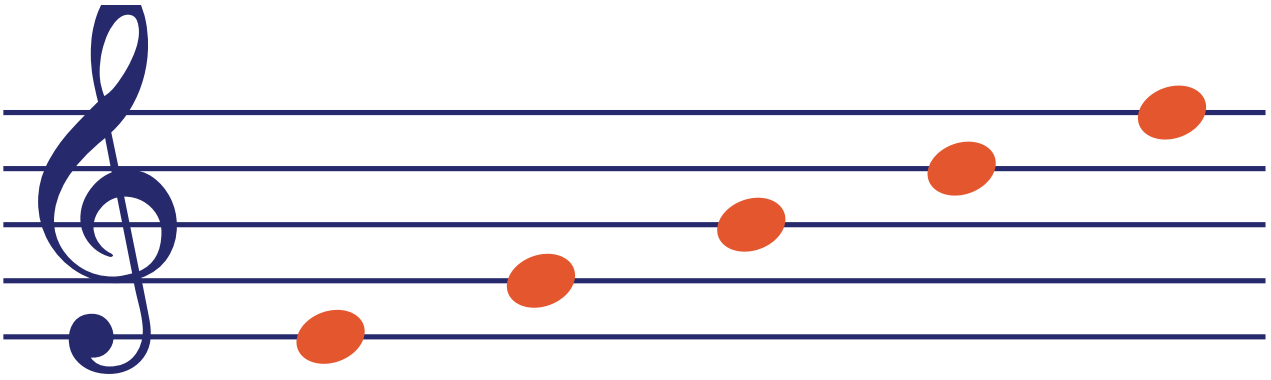

Count the notes, both ends included. The first is done.

FROM	TO	NOTES
Middle C	up to treble G	5
Middle C	down to bass F	☐
Middle C	up to A	☐
Middle C	down to E	☐
G	up to the next G	☐

ROOM 4 · STEP 1 OF 3

Reading the notes

SCAN TO LISTEN

E G B D F

The five **lines** of the treble staff are **E G B D F**, from the bottom up.

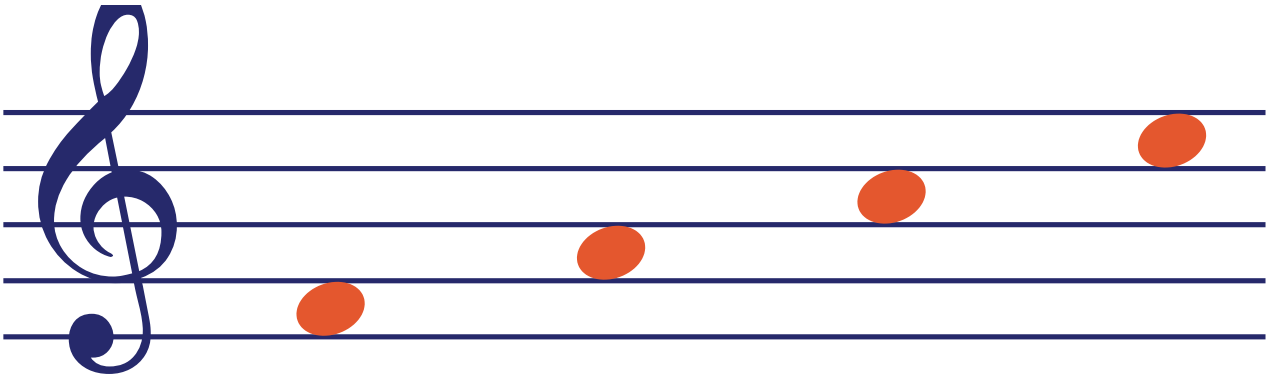

A sentence helps: **E**very **G**ood **B**oy **D**eserves **F**un.

Try it at the piano

1. Play E G B D F going up from the E above Middle C, saying the sentence.

ROOM 4 · STEP 2 OF 3

Reading the notes

F A C E

The four **spaces** of the treble staff spell a word: **F A C E**.

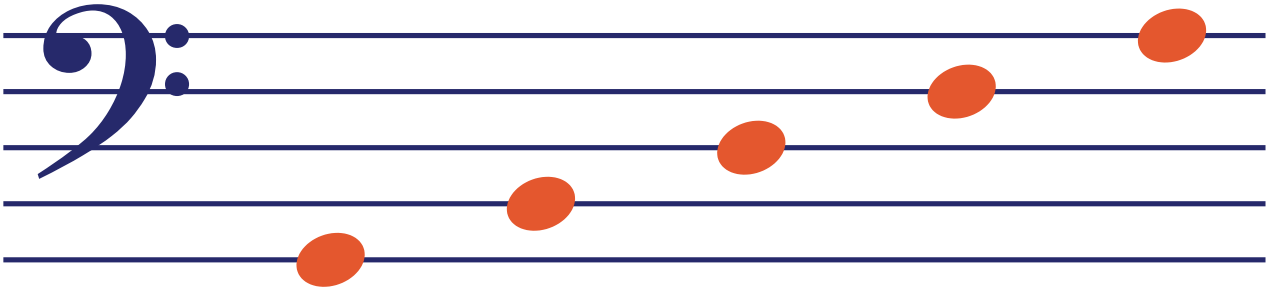

Lines and spaces take turns, so the notes go F, G, A, B, C, D, E.

Try it at the piano

1. Play F A C E going up. Then play F G A and say which is a space and which is a line.

ROOM 4 · STEP 3 OF 3

Reading the notes

G B D F A

The bass staff is different. Its **lines** are **G B D F A**: **G**reat **B**ig **D**ragons **F**ly **A**way.

Its spaces are **A C E G**: **A**ll **C**ows **E**at **G**rass.

Try it at the piano

1. With your left hand, play G B D F A going up from the second G below Middle C, saying the sentence.

ROOM 4 · PRACTISE

Reading the notes

1 The letters on the staff

★☆☆

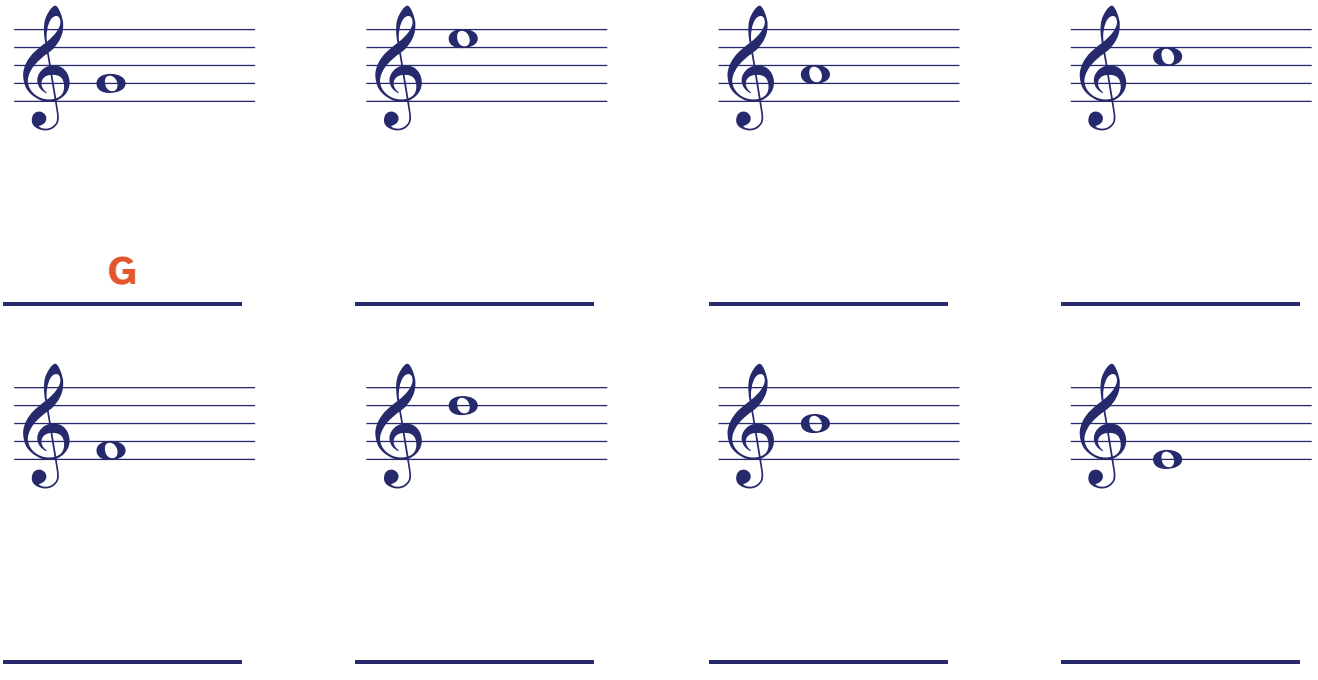

Write the letters from the bottom up. The first row is done.

Treble lines	E	G	B	D	F
Treble spaces					
Bass lines					
Bass spaces					

2 Treble clef notes

★☆☆

Write the letter name under each note. The first is done.

G

ROOM 5 · STEP 1 OF 7

How long is a note?

SCAN TO LISTEN

One circle is **one beat**. A **crotchet** is one circle. A **minim** is two, a **dotted minim** three and a **semibreve** four.

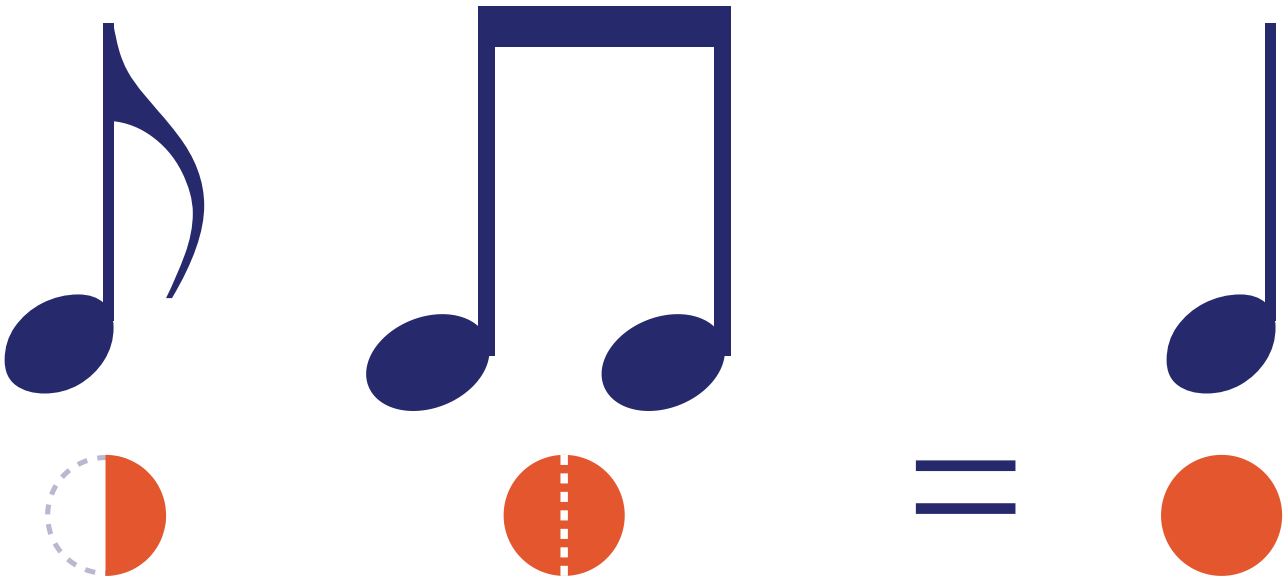

Now come the notes shorter than one beat: pieces of the circle.

Try it at the piano

1 Play C as a semibreve, a dotted minim, a minim and a crotchet, counting the beats out loud: 1 2 3 4.

ROOM 5 · STEP 2 OF 7

How long is a note?

Cut the circle in half. A **quaver** is **half a beat**, and on its own it has a **tail**.

Put two halves together and you have one whole beat: two quavers joined by a **beam**. We count them **1 and**.

Try it at the piano

1 Play C in crotchets, counting 1 2 3 4. Then in quavers, counting 1 and 2 and 3 and 4 and.

ROOM 5 · STEP 3 OF 7

How long is a note?

Cut each half again. A **semiquaver** is a **quarter of a beat**, and on its own it has **two tails**.

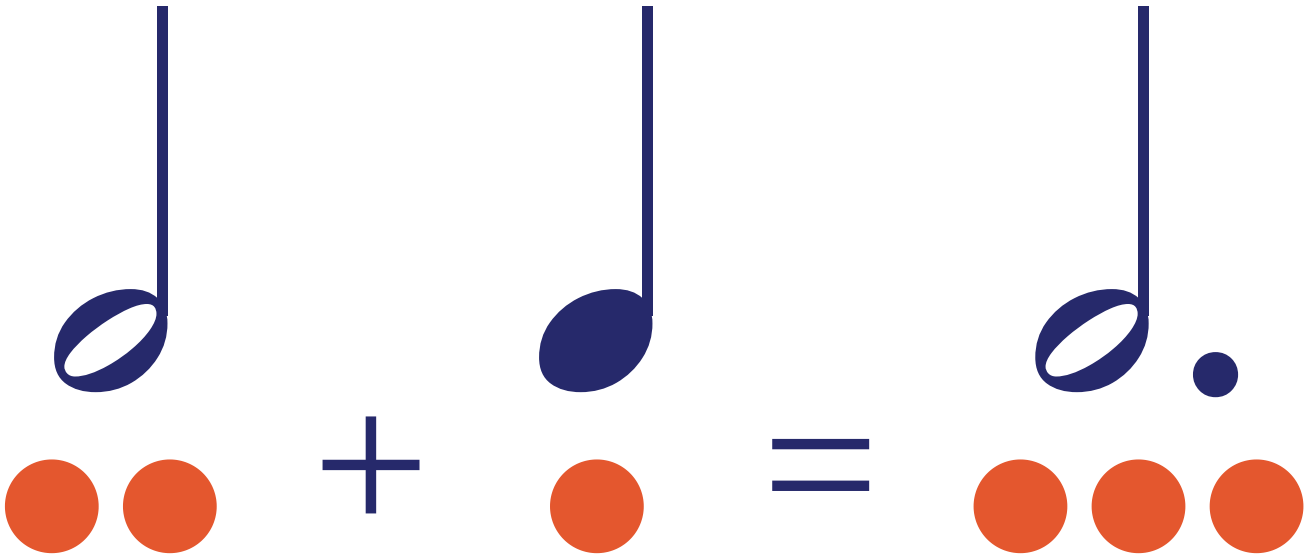

Put four quarters together and you have one whole beat: four semiquavers joined by **two beams**. Say **wa-ter-me-lon**.

Try it at the piano

1. Clap four beats. Then tap four semiquavers on every beat, saying wa-ter-me-lon.

ROOM 5 · STEP 4 OF 7

How long is a note?

A **dot after a note** makes it longer: it adds **half** of the note again.

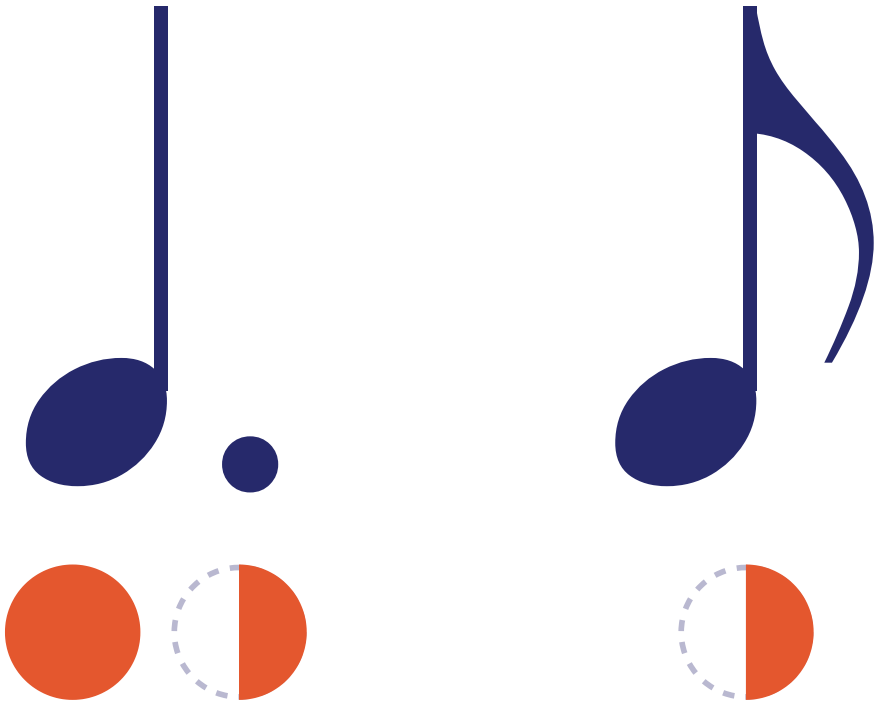

A minim is 2 beats. Half of 2 is 1. So a dotted minim is 2 + 1 = **3 beats**.

Try it at the piano

1. Play C as a minim, counting 1 2. Then as a dotted minim, counting 1 2 3.

ROOM 5 · STEP 5 OF 7

How long is a note?

The same dot works on a crotchet: 1 + ½. A **dotted crotchet** is **one beat and a half**.

A quaver usually follows it to finish the second beat. Long, then short: **1 – 2 and**.

Try it at the piano

1. Play C long, then D short, counting 1, 2 AND. The D comes on the “and”.

ROOM 5 · STEP 6 OF 7

How long is a note?

2 + 1 = 3 beats

A **tie** is a curved line joining two notes of the **same** pitch. Play the first one and **hold** through the second.

A minim tied to a crotchet lasts three beats.

Try it at the piano

1. Play C and hold it for 1 2 3. You have played two notes with one press.

ROOM 5 · STEP 7 OF 7

How long is a note?

1 beat

2 beats

4 beats

A **rest** is a beat of **silence**. You count it just like a note, but you do not play.

The crotchet rest lasts 1 beat. The minim rest sits on a line for 2. The semibreve rest hangs under a line for 4.

Try it at the piano

1. Play C, C, then lift your hand for one beat, then C: 1, 2, (rest), 4. Keep counting through the silence.

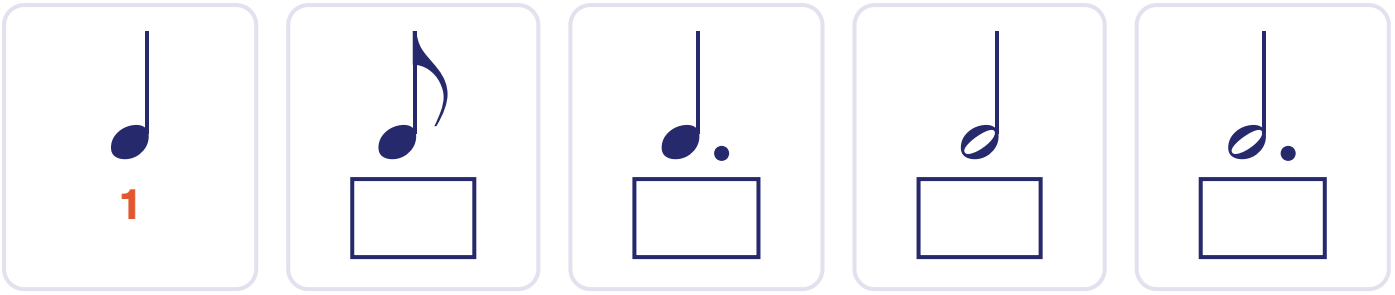

ROOM 5 · PRACTISE

How long is a note?

1 How many beats?

★☆☆

Write the beats. A quaver is ½. The first is done.

2 Add them up

★★☆

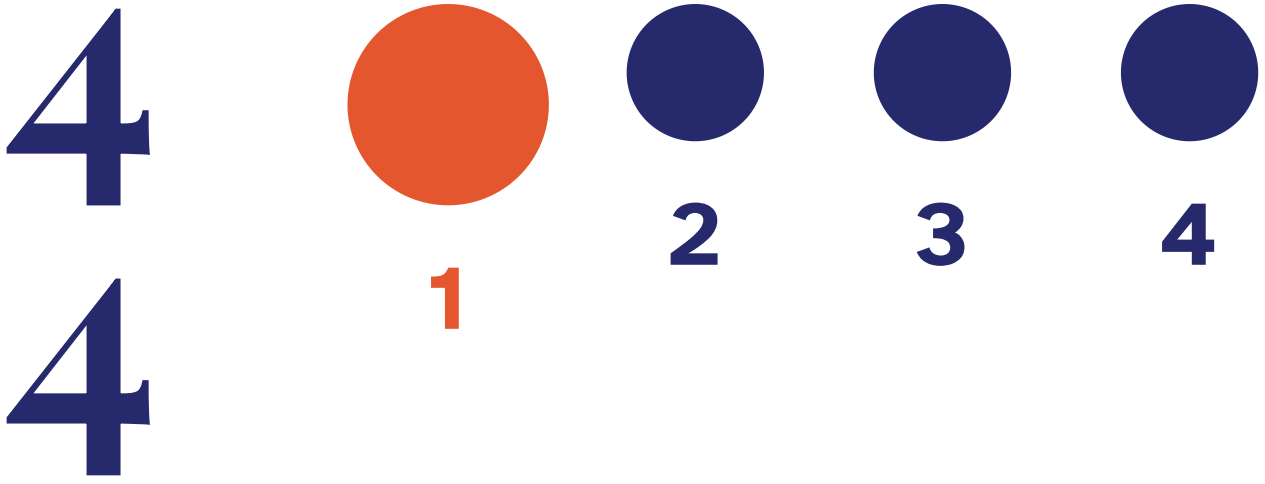

Write the total number of beats. The first is done.

NOTES	BEATS
	1
	
	
 (tied)	
	

ROOM 6 · STEP 1 OF 3

Time signatures

SCAN TO LISTEN

The two numbers at the start are the **time signature**.

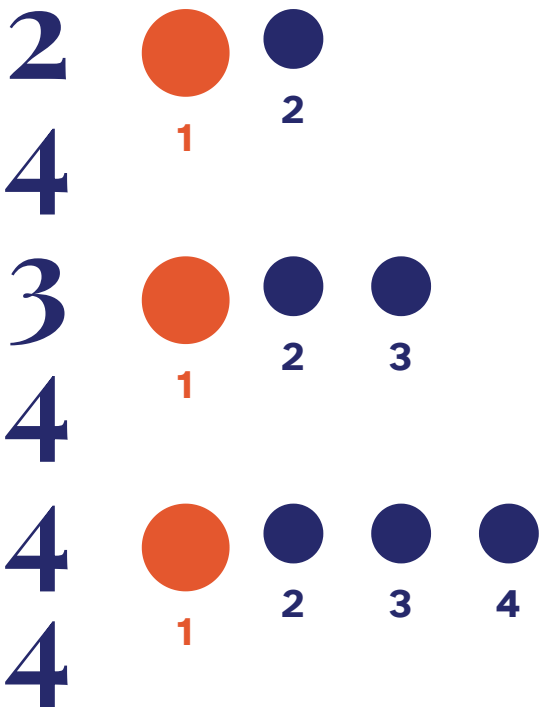

The **top number** says how many beats are in every bar. The bottom 4 says each beat is a crotchet.

Try it at the piano

1. Clap four beats in a bar, the first one stronger: ONE two three four.

ROOM 6 · STEP 2 OF 3

Time signatures

Two in a bar marches: left, right. **Three** in a bar swings round, like a waltz. **Four** in a bar walks.

Beat 1 is always the strongest.

Try it at the piano

1. Clap each one: ONE two · ONE two three · ONE two three four. Which does your piece use?

ROOM 6 · STEP 3 OF 3

Time signatures

1	2	3
Andante	**Moderato**	**Allegro**
at a walk	not slow, not fast	quick and lively

A word above the first bar tells you **how fast** the beat goes. The words are Italian.

Andante is a walking speed. **Moderato** is in the middle. **Allegro** is quick and lively.

Try it at the piano

1. Clap four beats Andante, then Moderato, then Allegro. Find the speed word at the top of your piece.

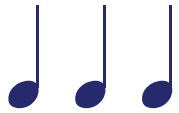

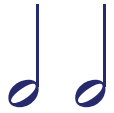

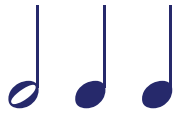

ROOM 6 · PRACTISE

Time signatures

1 How many beats in a bar?

★☆☆

Write the top number that fits. The first is done.

ONE BAR	BEATS
	3
	
	
	
	

2 Two, three or four?

★★☆

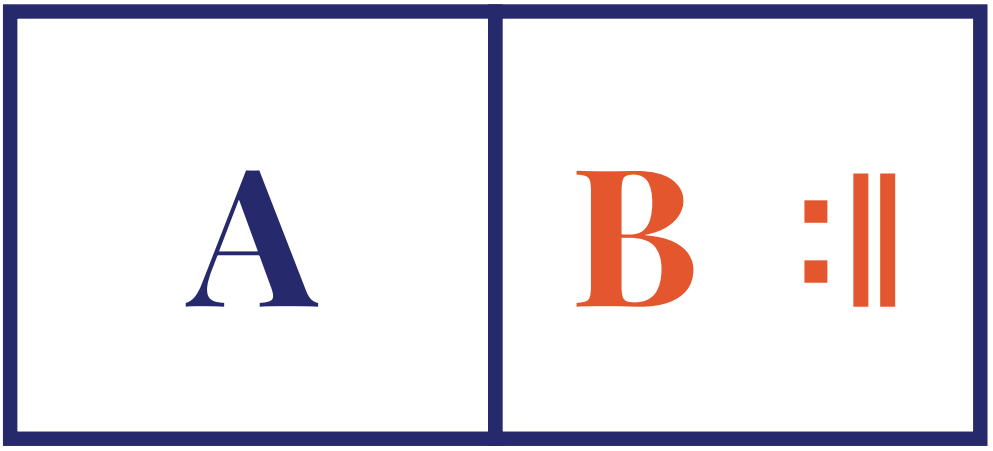

Clap each one with a strong beat 1. Write 2, 3 or 4.

IT FEELS LIKE…	BEATS IN A BAR
LEFT right, LEFT right	
ONE two three, ONE two three	
ONE two three four	

ROOM 7 · STEP 1 OF 2

Repeats

SCAN TO LISTEN

Two dots beside a double bar line make a **repeat sign**. It means: **go back and play it again**.

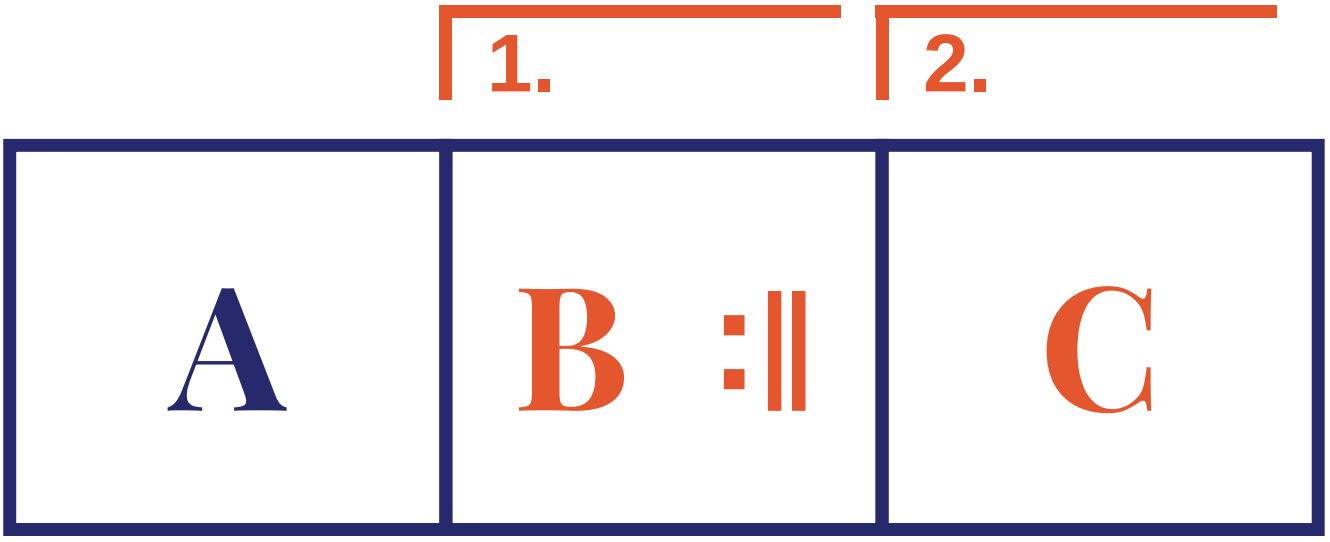

So this music is played A B, then A B once more.

Try it at the piano

1. Find a repeat sign in your book. Play up to it, then go back to the start and play it again.

ROOM 7 · STEP 2 OF 2

Repeats

Sometimes the ending changes. The bar marked **1** is played the first time only.

The second time, **skip it** and jump to the bar marked **2**: A B, then A C.

Try it at the piano

1. Say the order out loud for this picture: A, B, back, A, C. Then look for a first-time bar in your music.

ROOM 7 · PRACTISE

Repeats

1 Write the order

★☆☆

Each letter is one bar. At a repeat sign, go back to the start once. Write the letters in the order you play them. The first is done.

THE MUSIC	YOU PLAY
A B :‖	**A B A B**
A :‖ B	
A B C :‖	
A B :‖ C	

2 First and second time

★★☆

The bar marked 1 is played the first time only; the second time you skip it and play the bar marked 2. Write the order. The first is done.

THE MUSIC	YOU PLAY
A [1. B :‖ [2. C	**A B A C**
A B [1. C :‖ [2. D	
A [1. B :‖ [2. C D	

ROOM 8 · STEP 1 OF 2

Touch: smooth and short

SCAN TO LISTEN

The same notes can be played in different ways. **Legato** means smooth and joined. **Staccato**, a dot above or below the note head, means short. (A dot *after* a note makes it longer.)

An **accent** (>) means that note is stronger.

Try it at the piano

1 Play C D E F G smoothly, each finger passing the sound to the next. Then play it staccato, like hot keys.

ROOM 8 · STEP 2 OF 2

Touch: smooth and short

A curved line over **different** notes is a **slur**. Play them smoothly, in one breath, and lift gently at the end.

A tie joins the same note; a slur joins different ones.

Try it at the piano

1. Play C D E F as one slur: sink into the C, float off the F.

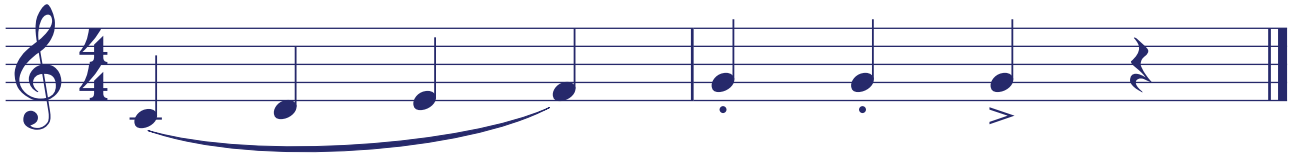

ROOM 8 · PRACTISE

Touch: smooth and short

1 Which notes are short?

★★☆

Look at the music and complete the sentences. The first is done.

Bar 1 is played [joined] (joined or short).

In bar 2, [ ] notes have a staccato dot.

The last G has an [ ] .

2 Slur or tie?

★☆☆

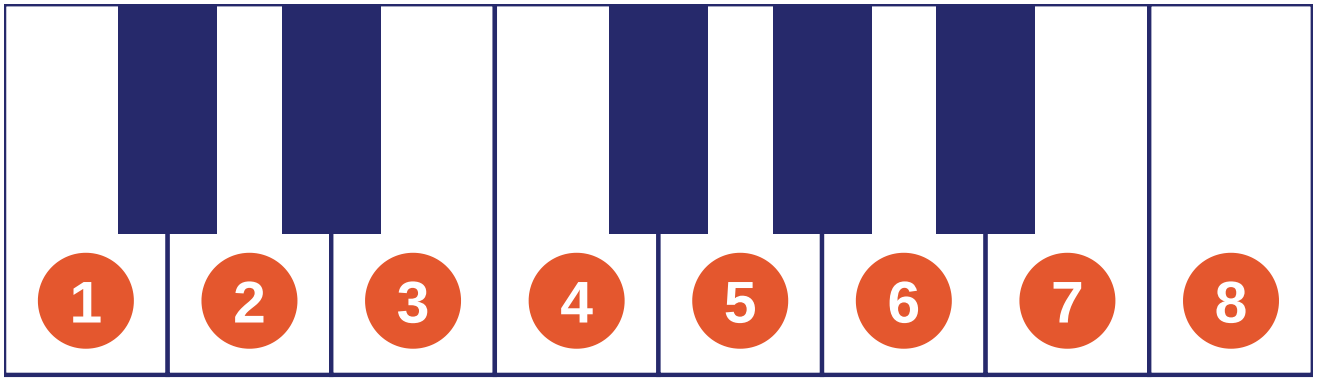

Circle slur or tie. The first is done.

a curve over C D E	**(slur)** · **tie**
a curve joining G and G	**slur** · **tie**
a curve over E F	**slur** · **tie**
a curve joining two Bs	**slur** · **tie**

ROOM 9 · STEP 1 OF 4

Major scales

SCAN TO LISTEN

A **scale** is a ladder of eight notes. Play the white keys from C to the next C and you have **C major**.

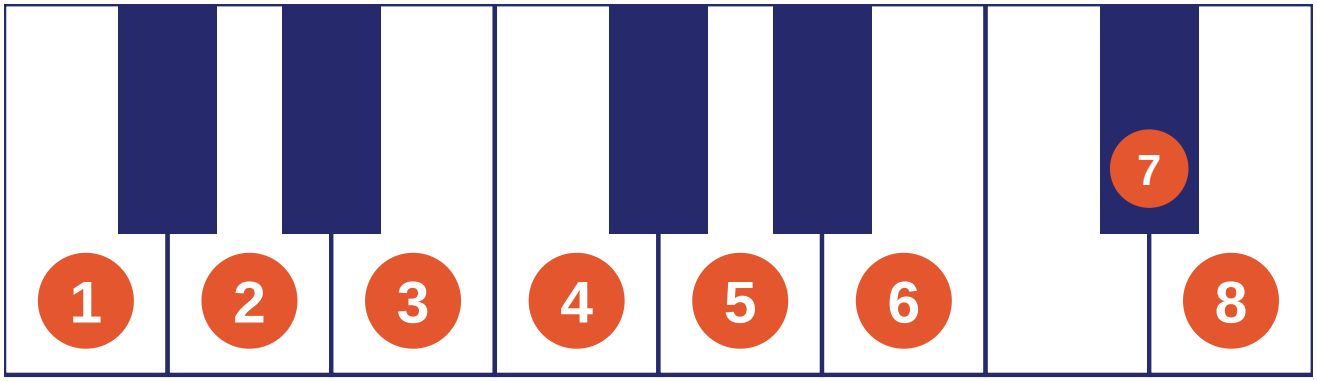

Notes **3–4** and **7–8** are close together, with no black key between. Every other pair has a black key between.

Try it at the piano

1. Play C major going up with one finger, saying the numbers 1 to 8. Listen for the two close steps. (Fingering comes in step 3.)

ROOM 9 · STEP 2 OF 4

Major scales

Start the same ladder on G and one note has to change: the 7th note becomes **F sharp**, so that 7–8 stay close. A **sharp** (♯) is the very next key to the right, here a black one.

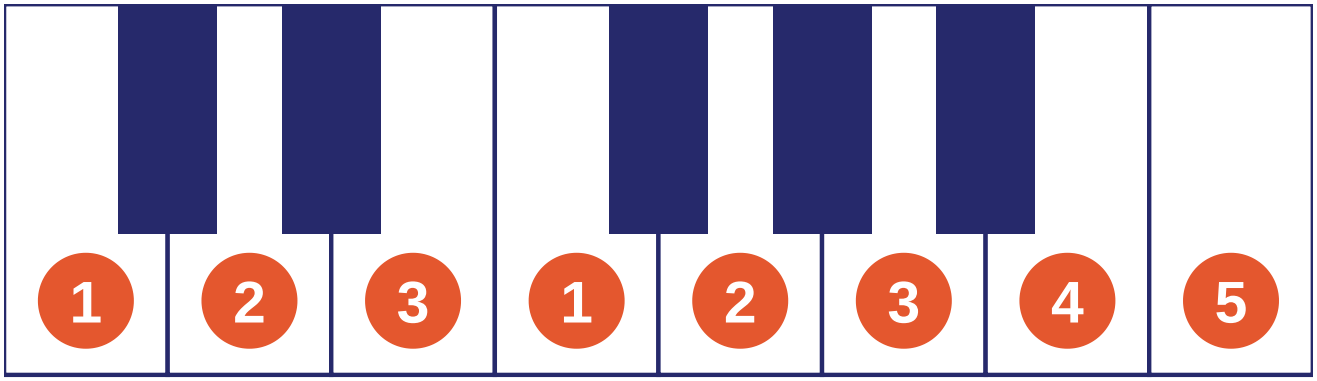

That is **G major**: one sharp, F♯.

Try it at the piano

1. Play G A B C D E, then the black key F♯, then G. Now try it with a white F: hear how it sounds wrong.

ROOM 9 · STEP 3 OF 4

Major scales

Eight notes, five fingers. Going up, the right hand plays **1 2 3**, then the **thumb tucks under** and plays **1 2 3 4 5**.

From one C to the next is one **octave**. Coming down, play 5 4 3 2 1, then finger 3 crosses over: 3 2 1.

Try it at the piano

1 Right hand, C major, one octave up and down, slowly. Say the finger numbers. Your teacher will show you the left hand.

ROOM 9 · STEP 4 OF 4

Major scales

0

C major
A minor

1 ♯

G major
E minor

Music in G major would need a sharp on every F. So one sharp is printed once, right after the clef. That is the **key signature**.

No sharps: C major or A minor. One sharp: G major or E minor.

Try it at the piano

1 Look at the start of your piece. How many sharps are after the clef? Say which two keys it could be.

ROOM 9 · PRACTISE

Major scales

1 Write the scale

★☆☆

Write the eight notes going up. The first is done.

SCALE	NOTES
C major	C D E F G A B C
G major	

2 Where are the close steps?

★★☆

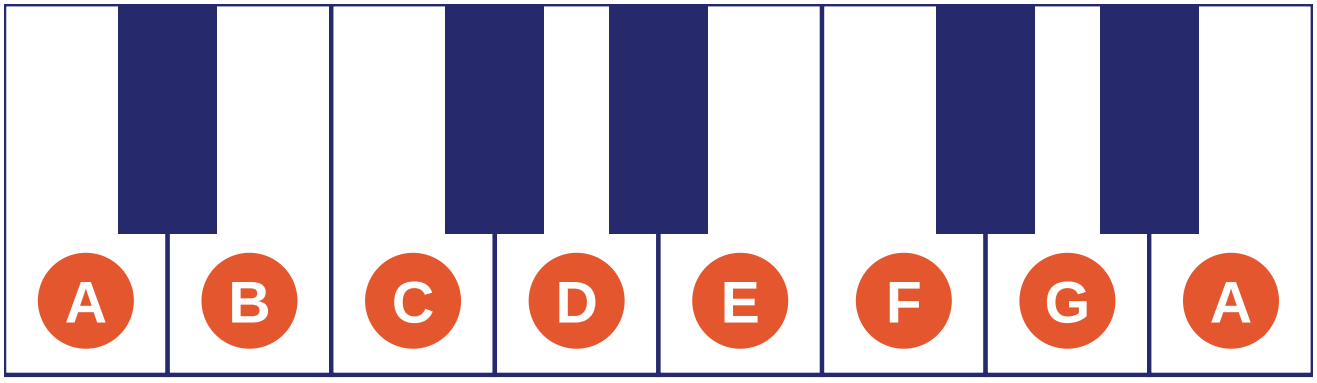

In a major scale two pairs of notes are close together, with no key between. Write their numbers.

Notes ☐ – ☐ and notes ☐ – ☐

ROOM 10 · STEP 1 OF 3

Minor scales

SCAN TO LISTEN

Play the white keys from A to A and you have **A minor**. It uses the same notes as C major, but A is home, and it sounds darker.

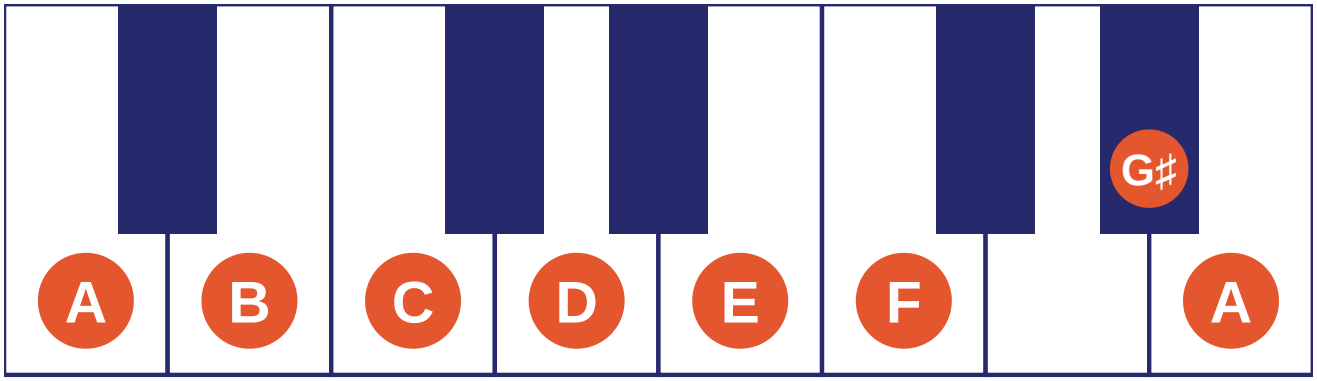

This plain form is the **natural minor**.

Try it at the piano

1. Play C major up and down, then A natural minor. Same white notes, a different mood.

ROOM 10 · STEP 2 OF 3

Minor scales

Raise the 7th note one key, G to **G sharp**, and the scale pulls strongly back home.

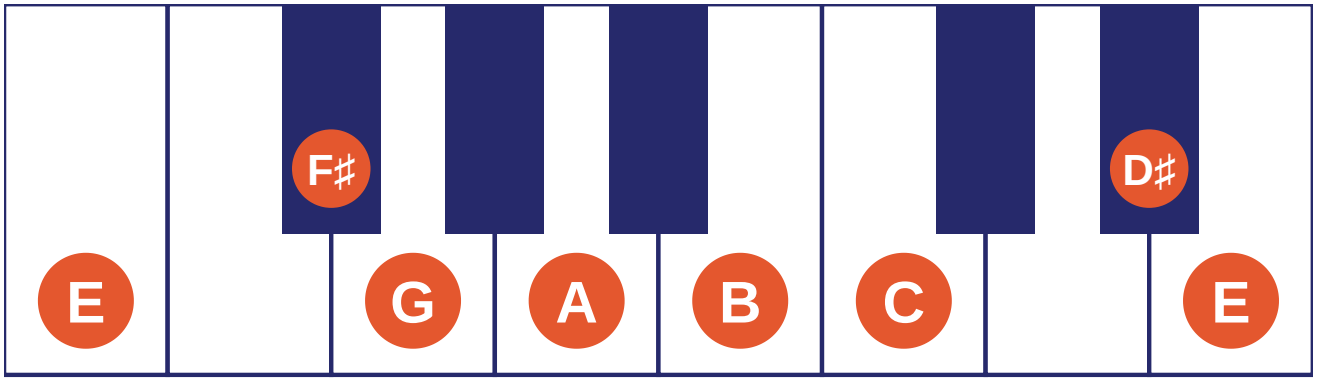

This is the **harmonic minor**: A B C D E F G♯ A.

Try it at the piano

1. Play A harmonic minor slowly. Stop on G♯ and feel how much it wants to go up to A.

ROOM 10 · STEP 3 OF 3

Minor scales

E minor uses the same notes as G major, so it keeps **F sharp**. E is home.

For the harmonic minor, raise its 7th note too: D becomes **D sharp**.

Try it at the piano

1. Play E natural minor (with F♯), then E harmonic minor (F♯ and D♯).

ROOM 10 · PRACTISE

Minor scales

1 Write the scale

★☆☆

Write the eight notes going up. The first is done.

SCALE	NOTES
A natural minor	**A B C D E F G A**
A harmonic minor	
E natural minor	
E harmonic minor	

2 Which note is raised?

★★☆

In the harmonic minor the 7th note goes up one key. Write it. The first is done.

SCALE	THE 7TH NOTE BECOMES
A harmonic minor	**G sharp**
E harmonic minor	

3 Same notes as...

★☆☆

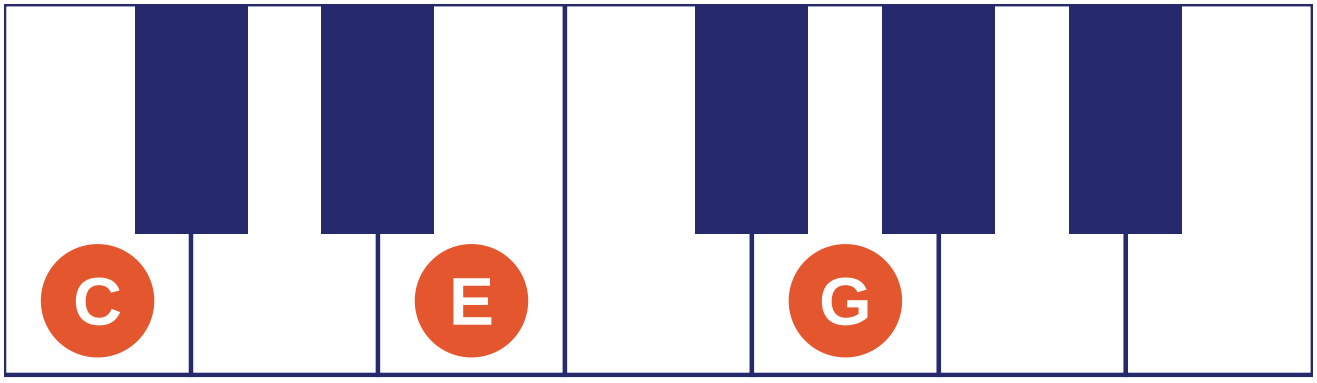

Each minor scale shares its notes with a major scale. Write it.

MINOR	MAJOR
A minor	**C major**
E minor	

ROOM 11 · STEP 1 OF 2

Chords and triads

SCAN TO LISTEN

A **chord** is three or more notes played together. The simplest chord is a **triad**: three notes.

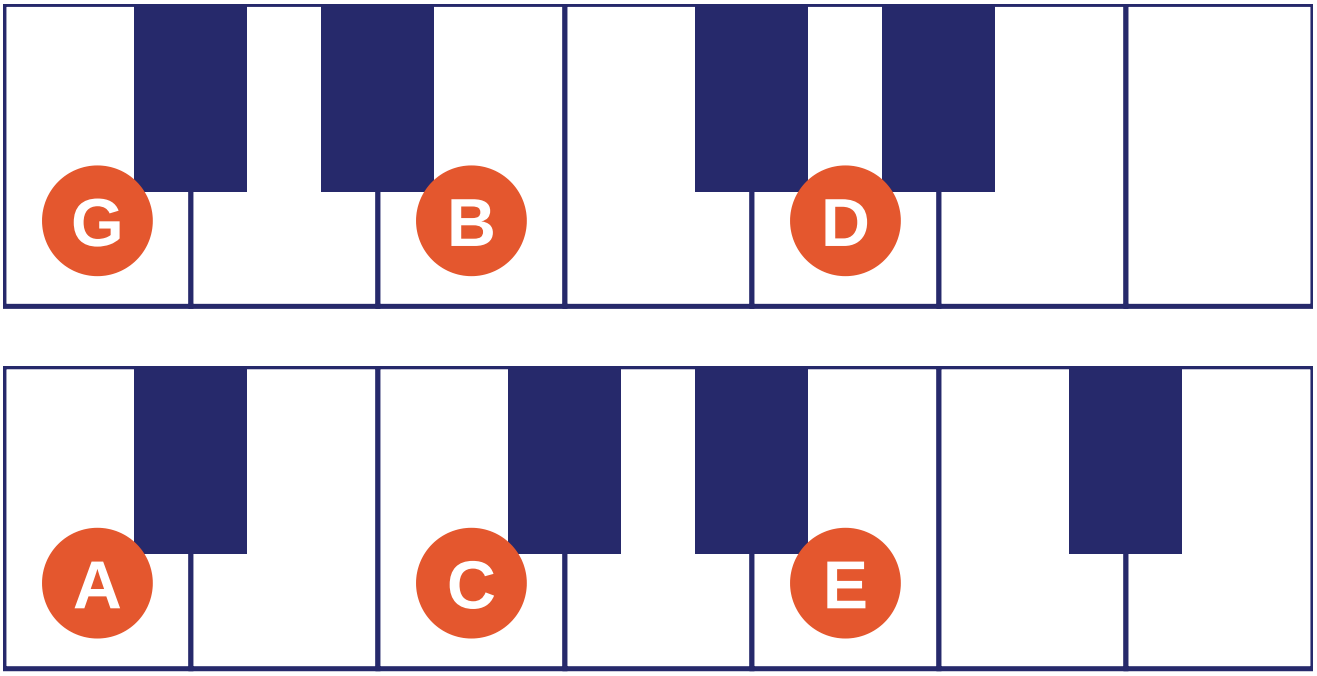

To build one: **play one, skip one, play one, skip one, play one**. C, E, G.

Try it at the piano

1 Right hand fingers 1, 3 and 5 on C, E and G. Play them one at a time, then all together.

ROOM 11 · STEP 2 OF 2

Chords and triads

The same shape works on other white keys too. On G it gives **G B D**. On A it gives **A C E**.

The bottom note names the triad. C and G sound bright: **major**. A sounds darker: **minor**.

Try it at the piano

1. Keep your hand in the triad shape and move it: C E G, then G B D, then A C E.

ROOM 11 · PRACTISE

Chords and triads

1 Build the triad

★☆☆

Play one, skip one, play one, skip one, play one. Write the three notes. The first is done.

ON	THE TRIAD
C	**C E G**
G	
A	
E	

2 Major or minor?

★★☆

Play each triad and listen: bright or dark? Circle one. The first is done.

TRIAD	
C E G	(major) · minor
A C E	major · minor
G B D	major · minor
E G B	major · minor

ROOM 12 · STEP 1 OF 1

Ear training

SCAN TO PLAY

1 **Clap the beat**

2 **Echo the rhythm**

3 **Sing the tune**

4 **Higher or lower?**

Listen first, then play. Good ears make good fingers.

Four listening games belong to this level. Each one is in the app: scan the code and play one each day.

Try it at the piano

1 Before you play a note, sing it. Then play it and listen: were you right?

ROOM 12 · PRACTISE

Ear training

1 Clap the beat ★☆☆

A grown-up plays in two or in three, slow or quick. Clap the beat, and keep clapping when the music stops.

○ ○ ○ ○ ○

2 Echo the rhythm ★☆☆

They clap a short pattern. Clap it back exactly.

○ ○ ○ ○ ○

3 Sing the notes ★☆☆

They play five notes slowly, one at a time. Sing each one after it.

○ ○ ○ ○ ○

4 Higher or lower? ★☆☆

They play two notes. Say whether the second is higher or lower. Tick a circle for each day you play these games.

○ ○ ○ ○ ○
